

DEEP SEEKER MAKE – LABTEK, ORIGIN – INDIA

Deep Search Metal & Mine Detector

1. Light weight, Rugged and professional design
2. Reliable high-speed pulse-induction technology
3. Independent controls for Power, Sensitivity, Threshold and Audio
4. Adjustable parameters allow use as a professional mine or metal detector
5. Fully static detection target metal close to large metals
6. Capable of detecting target metal close to large metals
7. Detects all metals and alloys to a depth of over 1.5 meters with standard coil
8. Continuously variable pitch to indicate size and proximity of metal
9. Bar-graph display for visually in pointing metal
10. Concentric multi purpose 3-coil probe mounted on extendable telescopic pole
