

FUEL INJECTION TRAINER - MULTI POINT EFI SYSTEM MODEL NO – SL-99, MAKE – LABTEK, ORIGIN – INDIA

The Four-Cylinder Engine trainer should consist of a complete, fully operational Multi Point EFI system. Original components should be utilized and clearly laid out on a display board that is mounted on an integrated floor stand, made from powder coated electro galvanized steel, mounted onto wheels for mobility. A color coded schematic chart, under a lexon polycarbonate protective screen, of the EFI system and circuitâ€™s, should also be mounted onto the trainer for reference.
