

## Panel Saw Machine

**MODEL NO – SL - 3020 MAKE – LABTEK, ORIGIN – INDIA**

- With hardened steel rails, With tilting arbour complete with aluminium sliding table 385 x 3200 mm;
- Sliding table with phenolic rails, design VKR 7845, Sliding table with anodized profiles,
- Rip fence with micrometric adjustment,
- Saw blade safety guard, Table extension,
- Width of cut between saw blade and square 1500 mm, Main saw blade diameter 300 mm, 30 mm bore;

- Scoring saw blade diameter 100 mm, on arbor 20 mm, Cutting height 102 mm,
- Cutting height at 45° = 72 mm,
- Blade rotation speeds 4000 rpm,
- Cutting capacity with scoring unit 3260 mm,
- Blade tilting 0° to 45°,
- Including: scoring unit with separate motor, 5 kw at 8000 rpm;
- Full electric equipment with overload protection and emergency switch; Suction dust hood, Set saw blades; Net weight of machine 810 kgs,
- Motor 4 kw, 380/50/3 ph,
- 2 carbide tipped saw blades for melamine panel,
- 2 carbide tipped saw blades combination,
- 1 carbide tipped saw blades for aluminium,
- 1 carbide tipped saw blades for plastics
