

SPOT WELDING MACHINE

MODEL NO – SL-MEL-009, MAKE – LABTEK, ORIGIN – INDIA

Technical Specification:

- 01). The resistance welding process in spot welding floor type by foot operated control, minimum capacity 15 KVA.
- 02). Electricity supply AC. 220/380 Volt/3 Phase/50 Hz, fitted with ground leakage cable.
- 03). Water cooled.
- 04). Ability to spot mild steel, galvanized sheet and stainless steel at minimum thickness 1.5 + 1.5 mm. (min. total thickness 3 mm.)
- 05). Minimum throat depth 16 inches.
